***ASSOCIATION OF WALL-CEILING & CARPENTRY INDUSTRIES' (WC&C)
ANNOUNCES NEW EXECUTIVE DIRECTOR, JOHN DELOLLIS***

NEW YORK—December 1, 2010 — The Association of Wall-Ceiling & Carpentry Industries of New York, Inc. (WC&C) is pleased to announce its new Executive Director, John DeLollis, a WC&C Board Member since 1980 and two-term Past President.

DeLollis began his career as an architectural consultant and then joined the construction industry in the early 1970s, forming his own company, Interiormetrix, Inc., an interior systems contracting company. He joined WC&C in 1977 and he has been a dedicated member for over 30 years, serving as a Trustee on the Industry Funds Board and on numerous WC&C committees. DeLollis has served on a variety of industry boards, including serving on the Board of the Empire State Regional Council of Carpenters, the Board of Trustees for District Council 9 New York IUPAT, Painters and Allied Trades, the Board of the New York State Laborers' Union and as Chairman of the Board of Trustees for the Long Island District Council.

A New Direction for WC&C

DeLollis' goals for the future of WC&C include providing educational programming for contractor members and working with industry leaders to advance the unionized construction industry. He intends to promote the high quality work of the union industry and DeLollis is committed to highlighting the attention to safety, quality and efficiency that WC&C brings to every jobsite. WC&C members utilize a unionized workforce to offer greater efficiency, which leads to reduced work hours and deflated costs. DeLollis also plans to prioritize efforts to enhance cooperation between labor and management.

"I am thrilled to once again direct the WC&C at a time where advancement is so important for our members," DeLollis. "We will be holding numerous seminars over the next few months for members as well as with key decision-makers in government, real estate, the design community—all with the goal of increasing business opportunities for our members and providing members with the knowledge they need to grow." DeLollis also has explored options for providing one-on-one business management and leadership training for WC&C members, providing these contractors with key ingredients for success despite challenging economic conditions.

ABOUT THE ASSOCIATION OF WALL-CEILING & CARPENTRY INDUSTRIES

The Association of Wall-Ceiling & Carpentry Industries (WC&C) is the principal organization advocating the interests of contractors, suppliers and manufacturers in the wall and ceiling

industries and provides support for contractors in a number of critical areas including legislative advocacy, insurance and safety. WC&C's mission is to establish cooperative interests among its members and to provide service to the building public. The association was founded in 1918 and is based out of Jericho, New York. To contact the WC&C, call (516) 478-5600 or visit their website at www.wcc-ny.com.
